EXPERIENCE

Research Data Scientist Intern

Yoobic

📅 Sep 2018 – Aug 2019 (1 year)

📍 Tel Aviv, IS & Paris, FR

- **Object detection** - Faster RCNN reaching 95% mAP at inference time
- **Segmentation** - Shelves Detection on retail stores images - U-Net reaching 98% accuracy at inference time
- **One shot learning** - Image classification using one image per category - Triplet Network reaching 90% accuracy at inference time
- **Image processing**: Perspective correction and image stitching algorithms

Techs : Python, Tensorflow, Keras, OpenCV, Pytorch, GCP Machines

Software Engineer

Paris Digital Lab

📅 Jan 2018 – Jul 2018 (7 months)

📍 Paris, FR

IoT Project @ AccorHotels Group

- Development of an IoT device to protect staff from sexual harassment
- Sending and backing up alerts when the staff member notifies a danger

Techs : LoraWAN, Arduino, RFID/NFC, Node.js, ReactJS

Chatbot Project @ IterimCo

- Development of a recruitment chatbot that pre-qualifies candidates
- Development of an admin dashboard to follow and control chatbot's actions

Techs : Python, Flask, Dialogflow, Node.js, ReactJS

Data Science Project @ RATP Group

- Anomaly detection from given daily logs on a subway line
- Unsupervised pattern recognition in unstructured log-data

Techs : Python, Tensorflow, Keras, LSTMs, Pandas, Flask, ReactJS

Data Scientist Intern

Valeo Group

📅 Jun 2017 – Jul 2017 (2 months)

📍 Paris, FR

- **Focus adjustment** algorithm on infrared camera
- Development of an **embedded facial recognition** algorithm

Techs : Python, Tensorflow, OpenCV, Siamese Networks

Full Stack Developer

ConduiteCenter

📅 Jan 2017 – Jan 2018 (1 year)

📍 Paris, FR

- Development of the website my.conduitecenter.fr for an **online driving school**
- Scheduling courses - Online payments - Automatic invoices and contracts

Techs : ReactJS, Node.js, Firebase, Docker, GCP Machines

EDUCATION

MSc, Artificial Intelligence

CentraleSupélec

📅 2016 - 2020

📍 Paris, FR

- **Mathematics** : Statistics, Probability, Large Scale Optimization, Game Theory
- **Data Science** : Machine Learning, Deep Learning, AI, Reinforcement learning, NLP
- **Software Engineering** : Software development & OOP (Python & Java)

Intensive Scientific Courses

Lycée Janson de Sailly

📅 2014 - 2016

📍 Paris, FR

Two intensive years of scientific course to prepare the selective entrance exams for the top engineering schools in France

SKILLS

Python	OpenCV	Tensorflow	
Pytorch	Keras	Flask	Java
C/C++	Docker	SQL	MongoDB

RELEVANT PROJECTS

- **Breast Cancer Detection** on mammograms - Reaching a mAP of 97%.
- **One-Shot Image Classifier** - Reaching an accuracy of 90%.
- **Shelves Detector** using segmentation - Reaching a pixel accuracy of 98%
- ... (More on delmalih.github.io)

CERTIFICATES & COURSES

🌟 **Machine Learning by Stanford University on Coursera**

[Certificate ID: 5ESK7HAM48SE](#)

🌟 **Deep Learning Specialization by deeplearning.ai on Coursera**

[Certificate ID: 9JG5RVYFBVGM](#)
